## BURLEY TOBACCO

Preparing, Grading, Selling and Reporting

PHOTO SERIES NO. 49

MAY 1960

The 1959 Burley tobacco crop was 500 million pounds. It is used mainly in cigarettes and pipe tobacco. One of the principal producing areas is Kentucky. It is also produced in sections of Tennessee, Alabama, Georgia, North Carolina, Virginia, West Virginia, Ohio and Indiana. The pictures in this series were taken at Lexington, Kentucky, for USDA's Agricultural Marketing Service.

*Magazines and newspapers may obtain glossy prints of any of these photographs from the Photography Division, Office of Information, U. S. Department of Agriculture, Washington 25, D. C. Others may purchase prints (8 x 10) at \$1.00 each from the same address.*

N-33662--Stripping cured burley tobacco leaves from the stalk.
